## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. Claims 1-23 & 25 are allowable over the prior art.
2. The following is an examiner's statement of reasons for allowance:

Reasons for allowance of claims 1-21 were given in a previous office action. With respect to claim 22, the prior art does not disclose the providing of at least one timing control signal to the photosensitive cell such that it comprises maintaining a reset control signal and a transfer control signal in a low state from an end of a preceding read cycle, setting the reset control signal to a high state to discharge a read node, returning the reset control signal to the low state, setting the transfer control signal to a high state, and returning the transfer control signal to the low state while the reset control signal remains at the low state. As a result, claim 22 and dependent claims 23 & 25 are allowable over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
